

PRESS RELEASE

Skopje, March 8th 2017

New and modern web platform for e-banking for legal entities by Ohridska Banka Societe Generale

Within the activities for digital transformation of the banking operations and additionally, bringing even closer Ohridska Banka Societe Generale' products and services towards the clients, as of today, for the corporate clients is available new, improved web platform for managing the corporate clients' bank accounts.

Namely, the new platform within the e-banking services by Ohridska Banka Societe Generale – OBSGnet, provides to the companies simple, and above all, safe way for managing their corporate MKD and FX accounts, in any time, wherever they are.

Enriched with numerous functionalities, the new platform includes advanced tools for even simpler usage. Some of those advantages are: unlimited access to client's accounts anywhere in the world, 24/7; possibility to overview the transactions and the account balance at any time; overview of accounts of other companies for which the e-banking user is an authorized person; reliability, durability and security of data; simple execution of payments; no installation fee; available in Macedonian and English; available also for non-resident legal entities, since from now on they will also be able to perform payments through the e-banking system; and many more.

- The availability of the bank services, especially for the business segment is of utmost importance for convening the everyday operations without any restraints. The digital transformation that as process is present in almost all industries has significant importance for gaining competitive advantage and reaching high level of customer satisfaction. The habits and the trends evolve –few years ago, each correspondence among the bank and the company was done exclusively at the branches, but today, the clients can simply manage their corporate accounts via such “Mobile offices”. What this upgraded and modern platform quarantines to the clients, is above all high level of security, easy and simple navigation throughout the offered options and tolls, as well as availability and accessibility according their needs – stated Nina Nedanoska, Director of the Corporate and Investment Division in Ohridska Banka Societe Generale.

The new upgraded platform is available on the same address and the clients can access it with their existing credentials (the same certificate and PIN number issued by Ohridska Banka Societe Generale, or certificate given by any certificate issuers).

For more information upon the new e-banking platform for corporate clients, the clients can visit Ohridska Banka Societe Generale web page www.ohridskabanka.mk.
